Kipin School 4.0

bayu indrawan

★★★★★ 7/7/20

A very good breakthrough during this pandemic which accommodate teachers to conduct online learning and give students a better learning experience. It provides us, teachers, bunch of interesting learning materials, free teacher resources and also the application is very easy to operate not only for the teachers but also for the students. Keep improving

★★★★★ 1/19/21

This apps make the learning process easy. It is not only useful for the students but also for teacher. The students can take any learning sources that they want. It also provides the teachers with the exercises that we can use in the online learning environment. I recommend this apps for my students and teachers in my school.

★★★★★ 9/12/20

Thanks God. I have found this app. It is very easy for me as a teacher to get the teaching materials whenever and whatever I want to. No need to write the materials by myself. It takes time to write. In the past time, I have to search the materials and exercises at my school library or on my own house library as my family have. While the books that I have does not match to the 2013 curriculum anymore. I have very old books. So I admired this app. I will look for the needed materials for my students here. Thanks to Kipin School!!!
